SUMMARY

Technologist, Full-Stack developer, and SDET who enjoys changing with modern tech. I strive to keep pace with those changes and improve my art and skills. I excel at making fluid, good-looking apps, and that fun feeling you get in the development stages when you take an idea from nothing into something. Complete test analysis allows these apps to thrive at all levels.

TECHNICAL SKILLS

Programming Languages: Javascript, Java

Front-end Development: HTML5, CSS3, JQuery, Bootstrap, AJAX, React

Test Tools: Selenium, TestNG, Cucumber, Log4j, Postman

Frameworks: Express/Node, React

Test Frameworks: Selenium, SOAPUI

Database Techs: MySQL, MongoDB

Methodologies: OOP, R/R cycle, RESTful API Development, TDD, Agile

EDUCATION

Georgia Tech Professional Education Credits: Georgia Tech, Atlanta, GA

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express and ReactJS.

Bachelors in Political Science & Government: Georgia State University, Atlanta, GA

PROJECTS

Title: Github User Lookup

GitHub: <https://github.com/darkquilius/Github-User-Lookup-SPA>

Deployed: <https://github-user-lookup-spa.netlify.app/>

Description:

- This application allows users to get an informative breakdown of different Github users statistics. Using Fusion Charts API, the information is displayed in a group of succinct charts and graphs. Modern usage of ES6 and React methodology are seen throughout the project.

Languages/Packages:

- React || Axios || Styled-Components || FusionCharts || Auth0 || Javascript || CSS

Title: Corporate Keeper

Github: <https://github.com/darkquilius/CorporateKeeper>

Deployed: <https://corpoate-keeper.herokuapp.com/>

Description:

- This SPA project aims to help keep track of prospective sales clients. This project was made in one weekend and has extensive use of modern React Context and ES6 hooks. Modular data verification is used to ensure correct form inputs.

Languages/Packages:

- React || JavaScript || HTML || CSS || FusionCharts || Styled-Components

EXPERIENCE

Software Development Engineer in Testing Infosys Inc.

MAR 2021– Present
Atlanta, GA

Responsibilities:

- Write well designed, testable, efficient code using Java
- Develop and execute Test Driven Development tests, integration tests, unit tests, and automated tests using tools such as Selenium, Jenkins, Log4J, etc
- Work with agile teams to refine requirements and to identify areas for enhancement
- Work with other team members to develop a complete and integrated solution; and to deliver quality software and required documentation on time
- Ensure that completed code provide all functionality described by application experts to ensure that acceptance criteria are met

Frontend Developer Intern Tribal III Inc.

FEB 2021–MAR 2021
